ALL WORKED UP.

The Waco Times-Herald is all worked up over the enormous and needless waste of the people's money in fat salaries and expensive commissions that could be abolished and never missed so far as the service they render is concerned. It is really alarming and The Eagle has, in its feeble way, directed attention to it many times. Something should be done, some agitation should be started that would make retrenchment the paramount issue in the State campaign. With retrenchment as the leading issue, out of the discussion which would follow, some concrete plan would develop by which this needed retrenchment could be started. As it is now, nothing will ever be done and it will grow worse from year to year. In discussing the matter the Times-Herald says:

"The Times-Herald doesn't attempt to fix the responsibility for this vast increase in the governmental establishment down at Austin.

"That isn't the question before the house.

"The Times-Herald wants to know if the people like this sort of thing.

"If they do not, they should be casting about for a way to remedy it.

"And they are not going to remedy it by shouting themselves hoarse for particular individuals.

"In a matter of this sort, the probabilities are that Charley Morris and Jim Ferguson are birds of a feather.

"What is required is a movement all along the line, not spasmodic, but steady, that will culminate in lopping off the many useless branches of the tree.

"And the great difficulty right here is in overcoming the present method of choosing public officials—a method that destroys the people's initiative and impairs their responsibility."

It is one of the funniest things in the world to see how some people act. They will let a family nearly starve to death, finally sicken and die, and then heap enough roses on their graves to disgust the devil himself; they will watch a business man flounder along in the slough of despond, waiting, wishing for him to bust, when, as they sometimes do in spite of such opposition, that business man gets a move on himself and makes good, they commence praising and want to get in on the ground floor—"always been a true friend to him," etc. Rats!

"The friend in need is the friend indeed."—Stamford Leader.

"Do it now" is a mighty good motto. If you are ever going to do anything for your fellow man, do it, as the circus man says, "while time, chance and opportunity" are yours. Join Editor McBeth's "Flowers for the Living" club and get busy.

The czar of Russia is said to be the richest man on earth. His income is estimated at one million dollars per day. As head of the state church of Russia, he owns all the church property, amounting to billions. He has at his disposal over 100 palaces, 30,000 servants and 300 automobiles, but we wouldn't swap jobs with him.—Mart Herald.

Not for keeps, but we would sure swing corners with him for one day.

The democrats of Panola County would swat the Gibson bill or any other such measure, if they were given a whack at it, in the primary. If they get no chance to strike it directly their representatives will do it for them in the legislature.—East Texas Register.

Well, the bill is to be submitted to the people in the July primary. Tell your people to get their swatters in shape.

The recent rains have doubled the necessity of fighting the weeds both early and late. If every citizen would keep down the weeds about his premises it would help wonderfully in the campaign against the mosquitoes. Mosquitoes do not breed in weeds, but the weeds furnish an excellent harboring place for them.

Some of the papers are advertising that they print candidates cards that "talk loud or soft," as wanted. Our idea is, it would not be well to make them talk too loud as they might start something.

The Mart Herald very aptly suggests that by trading with the home merchant and keeping your money at home, it may some day be yours again.

The one regret we have is that we cannot be in at the love feast now on at St. Louis—Navasota Examiner.

The Tom Love Feast?

AS THE
NEWS BREAKS

Corpus Christi, Texas, June 17.—Upwards of 100 delegates to the State convention of the Retail Merchants Association of Texas, now in session in San Antonio, were guests of this city today, having come on a special train as a part of the entertainment provided for them by their San Antonio hosts. They leave tonight.

While in Corpus Christi, the delegates were given a fish fry on Corpus Christi Bay, a water trip, and automobile rides.

Fort Worth, Texas, June 17.—A campaign to raise \$200,000 for the three educational institutions affiliated with the Christian denomination was to be started from headquarters here today. The fund is to be completed in cash or in pledges by January 1, 1917.

Texas Christian University at Fort Worth, the largest of the three institutions, will receive 75 per cent of the fund, which will be used in relieving debts on the present buildings. Carr-Burdette-Carlton College at Sherman will receive 12½ per cent of the fund, and Midland College of Midland the remainder. The campaign for raising this fund will be in charge of ten teams, composed of five men and a captain.

Team captains have been selected as follows: A. E. Ewell, Beaumont; F. F. Walters, Amarillo; J. G. Slayter, Dallas; E. M. Waits, Fort Worth; W. B. Jennings, McKinney; L. D. Anderson, Fort Worth; E. G. Jones, Midland; John W. Kern, Austin, and Dean W. B. Parks, acting president of the Texas Christian University, Fort Worth.

Dallas, Texas, June 17.—Texas delegates to the grand encampment of the Knights of Pythias, to be held in Los Angeles June 18-24, were embarking on a special train, leaving Dallas over the Texas and Pacific Railway today, carrying more than 100 State delegates. The Texas contingent is due to arrive in Los Angeles on the morning of June 18. No Texas city, as far as known, will seek the 1917 meeting of the encampment.

Austin, Texas, June 17.—Before final adjournment for the present term on June 24, the Court of Criminal Appeals is scheduled to pass on the constitutionality of the anti-pass law. Although this law has been through all the civil courts and reached the supreme court several times on different decisions, this is said to be the first occasion that its questioning has been carried to the criminal appeals court.

The law is assailed in a case, appealed from Hunt County, in which Hamp Abney was convicted of a misdemeanor for riding upon a pass alleged to have been the property of another. Abney claims that the anti-pass law is in violation of that portion of the State constitution which declares that railroads are public highways, and railroad companies are common carriers. He also declares the law is invalid because it abrogates the right of contract.

Dallas, Texas, June 17.—A tractor demonstration, the first of its kind to be held in this section of the State, was to be opened today at Grand Prairie, near here, under the auspices of the Southwestern Tractor Demonstration Association. The demonstration is entirely free to all interested, and a large number of farmers and land-owners were expected to witness it. The demonstration will continue until June 24.

The work done by tractors in every capacity on a farm was to be fully explained by directors and demonstrators, with all types of machines being used.

Georgetown, Texas, June 17.—The cornerstone of the new Williamson County science building on the campus of Georgetown University here was laid this morning with appropriate ceremonies. The building is a gift of the county to the university.

Food can be kept warm for half an hour or more in new tableware that is hollow and can be filled with hot water.

Cool Summer

DAVE JOLLY ANNOUNCES.

The Eagle is authorized to announce Dave Jolly as a candidate for constable of Precinct No. 4, subject to the action of the July democratic primary.

The Eagle does not need to tell the voters who Dave Jolly is, as he has lived in the county all his life and in Bryan for a number of years, giving him a personal acquaintanceship with all the voters of the precinct.

Mr. Jolly has had quite a large experience as a peace officer, having served as a deputy under Sheriff Conlee and also as deputy city marshal. Mr. Jolly's work as an officer was highly satisfactory to his superiors, and also to the people. He is quiet, careful, not excitable, but absolutely without fear in the discharge of his duties. He has the detective instinct, the instinct to ferret out crime in a marked degree and has some very fine work to his credit while serving as an officer.

Mr. Jolly is also a good man and citizen, quiet, sober and worthy whatever confidence may be reposed in him. If elected he promises the best service he is capable of rendering by being at all times on duty, faithfully discharging his every duty, treating everybody fairly and squarely and playing no favorites regardless of financial condition or social standing. In other words, he proposes to be absolutely impartial.

The Eagle takes pleasure in submitting the name and claims of Mr. Jolly to the democratic voters of the precinct.

CHEAP STATE LANDS.

For the information of those wanting to know something of our land affairs and for the benefit of those who may desire to acquire homes thereon upon very favorable terms, will you kindly say to your readers that I have sent to the printer a list of the lands that will be offered for sale September 1. This list includes about 4,300,000 acres. They will be ready for distribution about July 1. The lists are free and will give further information. Those wanting them may write me now and the list will be forwarded just as soon as they are received from the printer.

Yours truly,
J. T. ROBINSON,
Commissioner.

SOME HOUSEHOLD HINTS.

Cream Will Freeze More Quickly the Finer the Ice is Crushed.

Roast—The bone should be left in the roast, it will keep the juices in and add flavor and sweetness.

The finer you crush the ice to be

used in the freezer the more quickly it will freeze the ice cream.

Asparagus is delicious served with brown butter for a change, instead of

on toast with dressing.

To preserve rubbers for fruit jars cover them with dry flour. They will be as pliable as when new.

SPECIAL COUNCIL MEETING.

Question of Changing Paving Plan on West Anderson Discussed.

At a called session of the City Council this morning with Aldermen Tyler Haswell, B. U. Stimms, J. B. Doane, John C. Vick and W. S. Wilson, Jr., City Engineer A. S. Adams and City Secretary Smith present, the matter of changing the original plan of the paving of West Anderson Street was discussed. The original plan for this street was to have a park in the center of the street ten feet wide and running three blocks, in which the city was to plant trees and grass and keep same up in first class condition, but since the paving has started some of the residents along this street want to eliminate the park and pave the entire street. To pave the street all the way across and not have the park would cost considerable more than would the original plan. After considerable discussion a resolution was passed by the Council to the effect that they would allow the street to be paved without the park provided the property owners would pay for the extra expense.

American experts have perfected the highest grade of photographic paper, which formerly was imported from Europe.
